I am technology enthusiasts. love working with open source softwares

WORK EXPERIENCE

kuruntham internation (02/01/2033 - 12/01/2023)
INTERN DEVOPS

- Used privtunnel to make different digital ocean droplets to work together as they were in a single local network
- Made Database connection to only go through from certain individuals with unique vpn profile in openvpn
- made sure the database droplet won't have access from external connection and only through the vpn we can access
- made a vpc in digital ocean using privtunnel
